Claresholm Local News

Mrs. Martin Melom of Stavely is a patient in the hospital here.

Mrs. Anna Horton of Stavely is a patient in the hospital here.

Miss Emma Friesen of Stavely is a patient in the local hospital.

Miss Margaret Campbell, of Stavely, is a patient in the hospital here.

Geo. Long, who has been in the local hospital for some time, is improving.

Tax notices are out this week and show an increase in the total to 98 1-5 mills for this year.

Kenneth Barr, son of Lester Barr, was in the hospital here this week having his tonsils removed.

Mrs. Buchanan and son Robbie and Mrs. Buchanan and little son left on Thursday for a visit in Ontario.

Miss Nellie Miles, niece of Mr. and Mrs. Brooker, arrived unexpectedly from the old country on Thursday night.

Word comes from Ottawa that Saturday, July 29th, will be a legal holiday this year as well as Dominion Day, July 1st.

There have been showers on a number of days during the last two great amount of moisture has fallen, and the roads are drying out, though very rough in places.

Mrs. Bousquet and little daughter Catherine left Monday for Saskatchewan, called to the bedside of Mrs. Bousquet's mother who is seriously ill with cancer.

The pictures, from Peter B. Kyne's story "More Pay - Less Money," with Mary Brian and Charles Rogers at the Rex theatre Friday and Saturday nights, were good.

A delegation from the Calgary Board of Trade will tour this part of Alberta next Tuesday, weather permitting. The party expects to arrive in Claresholm about 3 p.m. and hope to meet all the business men.

In the exhibition carried baseball game at Stavely on Wednesday evening, Stavely won over Claresholm, the score being 2-6. Stavely's rather unusual ground rules were probably the cause of their victory.

Emil Beitz, who has been working for Mr. Lewis at Lewis' Garage, has been seriously injured in an accident. He was brought into the hospital where everything possible is being done for him.

A cloudburst at Barons last week gave that part of the community quite a scare. The water level boats were ringing in the streets of Barons for a time following the downpour. Gramma reports a chandelier also.

Monday two candidates were placed in nomination for town councillor. Mr. John Arnal was nominated by Mr. John Wall, Mr. A. Harton, and C. B. Vokom was nominated by Commissaries Anderson and Boddy.

With perfect weather Thursday evening a Chautauqua got away to a good start, when a full tent covered the Martin Erwin Players in the farce comedy "Ghosts and Gals." The show was well received and was said to have been claimed for it in the advance notices.

Major Schoel arrived here on Thursday night. He had been engaged in the lumber business in the States. Recently he has been patrolling Jasper Park and Banff, and was also at Wainwright Park watching the loading of buffaloes for shipment north.

Sunday night Sergt. Hodson picked up a hobo who was acting queerly on the streets. He was passed by the town locks, but which he managed to escape with a broomstick, but was later captured by Constables Bissett and Mardigard. The man is believed to be of unsound mind.

YOUR DAILY BREAD

No other item of food is so outstandingly important as your daily supply of bread. It must be fresh and it must be good. Our hundreds of bakers throughout the world attest the wholesomeness of the product of our bread ovens. Only the very best ingredients are used. We solicit your patronage. A trial order will convince you.

CLARESHOLM BAKERY

The George Markle Farm

I can sell you 480 acres of the cleanest and best land in the Claresholm district. 270 acres in wheat, 30 acres in oats, 160 acres will be summerfallow. Good buildings and well. A complete double outfit of good machinery, 13 large horses and harness, 6 cattle, between 300 and 400 chickens. The crop will make this about the cheapest farm on the market. See me now.

S. L. FRASER

THE WALL OF CHINA

In 214 B.C., the Chinese commenced building the Great Wall, which isolated their country from the rest of the world and helped retard their national progress.

The business man who maintains a wall of "digified reserve" towards the buying public is just as surely retarding his own business growth.

STAVELY LOSES TO HIGH RIVER

Stavely, June 15.—Wissler was all to the good last night and High River walked away with the Alberta Southern league game 8-1. The Stavely batsmen were held in check, hitting only one double, while the pitcher won the game. The game was played on an improvised grass-covered diamond the regular ground being too wet to use following a heavy rain that deluged the town and district during the afternoon. Slim Hayes pitched good steady ball but his support at times was ragged. The game remained the opening day of the like annual.

On Wednesday at Calgary the Hustlers took High River into camp 11 to 3 in a baseball feature.

—o—

ANSWERS TO LAST WEEK'S QUESTIONS

141. Why Are Prize Winners Given a Blue Ribbon?

Blue is a favorite adjective for the impossible in popular phrase and fable. The blue flower of the German mathematicians represented the ideal that could hardly be shown, blue is supposed to represent the best; hence such phrases as "Blues," "True Blue," "Blue Blood," etc. The blue ribbon worn by the Knights of the Garter was supposed to represent the highest honor which could be worn, and became eventually applied on the turf to the winner of the Derby. The practice of awarding the blue ribbon as the highest honor that can be bestowed on the winners in all classes of competition has become general.

142. What Is a Germ Disease?

A germ (microbe) is a minute, living organism. Some diseases germs produce a poisonous substance called "toxin" in the surrounding tissues. To counteract these poisons, the body naturally produces "antitoxins" which then combat the toxins produced by the invading bacteria, or destroy the bacteria themselves. Some microbes (as those of diphtheria) multiply so rapidly that they can't be destroyed by antitoxins, so strong and lasting antitoxin must be rendered by introducing into the patient antitoxin produced especially for this purpose by some other animal (usually the horse).

143. What Is a Toxin Antitoxin?

A toxin can be made immune from an invading attack by being given several injections of toxin antitoxin—a combination of the toxin given off by the diphtheria bacteria, and the antitoxin which some bodies can now produce in sufficient quantities to neutralize it. This treatment is less severe than anti-toxin alone, and the immunity lasts for years, not throughout life, whereas that afforded by anti-toxin alone does not last months. Albany, N.Y., population 35,000, where this form of immunization is generally used, has not had a death from diphtheria since March 9, 1924.

144. Why Are Bells Rung at Weddings and Funerals?

Bell is from the Anglo-Saxon word "Bellan" to make a loud noise. In ancient times they rang the church bells when a person was dying, to give the people time to say their last words. It was supposed to hover about a dying person ready to pounce upon his departing soul. They were called "passing bell" because the person was passing away. The church bell was not tolled only after death, and not a matter of respect, the custom having lost its original significance. Wedding bells originated in England. In medieval times it was customary for the church bells to ring as the bride entered and as she emerged on the arm of her husband. The custom still prevails.

145. What Is the Smithsonian Institution? Washington?

Established by statute in 1846, under the will of James Smithson.

Englishman who bequeathed his fortune to the United States to found an institution "the encouragement and diffusion of knowledge among men." The Smithsonian Building was erected on land given by the United States. Is under the control of a board of regents and a secretary; has an annual budget of \$1,000,000 and many scientific explorations of importance. Issues extensive annual reports. Has charge of the National Museum, National Art Gallery, Bureau of American Ethnology, National Zoological Park, and other important activities.

146. How Did the Expression "O.K." Originate?

Some 150 years ago the best railroad men in the country got together at Aux Cayes (pronounced O. K.), Haiti. The best of everything was designated as Aux Cayes, O. K. During President Jackson's campaign his opponents made the ridiculous statement that he was "all right" (meaning the best), was an abbreviation of the General's customary endorsement on papers for "all correct." The Democrats made a campaign slogan of the mystic letters and started the fashion. Then came the meaning "all correct" stuck to the letters, and since then they have had the dual meaning of "the best" and "all right."

147. What Is the U. S. Interstate Commerce Commission?

A body of seven members who administer the Interstate Commerce Laws. Prior to 1887 each railroad had its own rates. In some instances they favored preferred shippers, and in others preferred receivers, and in others the rates charged were unreasonable. The Commission has the power to examine the books of all railroads to establish freight and passenger rates that will be just and equitable to both the railroads and the public. No freight or passenger rate can be changed without its consent. It has also the enforcement of labor laws passed for the protection of railroad employees.

Wheat Pool Membership Campaign Under Way

The drive for the sign-up of the second series of Wheat Pool contracts is under way and meeting with splendid response. A Wheat Pool rally was held in Calgary to encourage the sign-up of the campaign. The Pool delegates, members of parliament, representatives of urban centers, and others attended the gathering. Addresses were given by Premier Bruneau of Saskatchewan, Hon. R. B. Bennett, K.C., M.P., Senator Buchanan of Lethbridge, Mayor Bury of Edmonton, Mayor Osborne of Calgary, and Mr. W. C. Ross, Minister of Agriculture of Alberta. Hon. J. E. Gardiner, Minister of Health, and the signs heralded a series of splendid speeches these men urged that the Wheat Pool movement be given generous support in all of Alberta.

Premier Bruneau predicted

success in the drive because of

the great improvement in Alberta's prosperity following the formation of the Wheat Pool.

Premier Gardner predicted that those who supported the Saskatchewan pool would fall well short of the

Alberta's disappointment.

Hon. M. C. Bennett said that the failure of

the Alberta Pool to obtain a large

sign-up would put agriculture

back fifty years in this province.

THERE ARE MANY REASONS FOR THE CHOICE OF CHEVROLET IN THE TWO-CAR FAMILY. Chevrolet is the most popular car in the world and under all conditions—its quick response, road holding, and general dependability—make it the most popular car in the world. The many improvements in the design of the car, the striking beauty of design and color make it the most popular car in the world. More and more the men and women of the world are turning to Chevrolet for a second car.

The Most Beautiful Chevrolet in America!

Beautiful Chevrolet
in Chevrolet History

"Sign for Safety"

The Second Series of Wheat Pool Contracts

SAFETY because it is a farmer-owned and controlled co-operative Association which markets over fifty per cent of Canada's wheat crop.

SAFETY because it guarantees to the farmers every cent paid by the consumer minus only the minimum costs of marketing.

SAFETY because it increased the farmer's income and independence by giving him a voice in the selling of his crop.

SAFETY because it insures the farmer against the losses and uncertainties caused by fluctuating speculative markets.

SAFETY because of low handling costs. The total annual expenses of operating the Alberta Wheat Pool in 1923, 1924 and 1925 was less than one-half a cent per bushel. The total expense of the Central Selling Agency in 1925-26 was one-fifth of a cent per bushel.

SAFETY because the Pool employs experts to handle and sell its grain.

SAFETY because Pool elevators guarantee fair weights, grades and dockage and good service.

SAFETY because the Pool merchandises wheat as the demand arises and thus avoids depressing values by offering more than the consumer will take at fair prices.

SAFETY because the sole aim of Pool salesmen is to get the true value of wheat for its members.

Red Cross Outposts Perform Signal Service

During the past year in the thirty-seven Red Cross outposts in operation in Northern Ontario, Manitoba, Saskatchewan, Alberta, and New Brunswick, 6,820 people were cared for, 1,010 operations, of which 234 were major operations, were performed; 515 children were born, and innumerable emergencies were helpfully met. Through the outposts, an immense amount of public health work was accomplished; 178 schools were visited; 4,341 children were examined; 3,300 homes were visited to give advice; thousands of women in homes were reached, and 743 mothers, most of whom must otherwise have gone without skilled care when their babies were born, were given expert attention, either in their own homes or at the outposts. Since

these figures were compiled two more outposts have come into existence in outlying sections of northern Ontario, ten more places in the west have requested hospitals, and the Red Cross is making every effort to expand this auxiliary service in pioneering districts, where it has had a very definite effect in rendering settlement safe, and hence in the ultimate extension of the Empire.

The well-trained nurse is the backbone of public health," said Dr. F. W. Routley, Director of the Ontario Division of the Red Cross when called to a health conference in the parliament buildings in Toronto recently. "She is the link between the scientific processes of public health measures and the public which has to use them. Nor should the nursing service be confined to hospitals. It ought to permeate the whole community, and if it be at all possible such small emergency hospitals or health centers as the

Red Cross outposts ought to exist in every settlement so that the necessary health education might within reach of our people."

Cautaqua program includes Mattison's Singing Band on Saturday afternoon and evening; J. Smith Damon in his demonstrated lecture "The Potter and the Clay"; Saturday afternoon: The John Ross Reed Company in musical and dramatic program Monday day afternoon and evening; Walter J. Millard's lectures; "Catch Up With Our Hands"; Monday afternoon, and "The Pictures in Our Heads"; Monday evening: The Martin Entertainers; Tuesday afternoon, the play "Smilin' Thru"; Tuesday evening: Dr. J. Franklin Babb's lecture "The Way Out"; Wednesday afternoon, and the Plantation Singers; Wednesday afternoon and evening.

Wild Life Increase In National Parks

Deer, Sheep and Other Animals at Jasper Numbered in Thousands

There are 10,000 mountain sheep and 10,000 deer in the Jasper National Park, according to an estimate made by J. H. Hardin, Commissioner of National Parks. In his annual report, Dealing with wild life in the parks, Hardin said:

An exceptionally cold and open fall, with practically no snow, was a boon to the game within the park, as it provided especially good feeding conditions. In general, it is interesting to note that all animals were in good condition. From the observations of the warden staff, it is estimated that there are between 800 and 1,000 elk in the park. Herds numbering as many as 70 and 100 have been seen in the vicinity of Cabin Creek.

A very gratifying increase is noted in Rocky Mountain Sheep. They are now numbered in thousands and specimens of all manner being frequently seen. An estimate places the number of sheep within the park at 10,000. White Rocky Mountain goats generally keep to the higher altitudes, while the smaller goats bring out. There are at present believed to be well over 2,000 sheep in the park and all, including kids, are in good condition.

Signs and tracks seen in the different trails indicate a considerable increase among the grizzly bear, especially in the region of the Snake River, and Rocky and Smoky Rivers and Rock Lake. Black bear are also increasing and it is a common sight to see them in the park. There are fifteen of these animals in the forest belt of Jasper at one time. A very conservative estimate places the total number of bear within the park at 5,000.

Moose are at least coming into the park in large numbers. They have been seen in practically all areas, and are usually tame. Eighteen hundred of these animals are believed to be within the park confines. Fox are leading all other animals in the matter of increase and the estimate of their numbers is placed at 10,000.

They are very tame and are not afraid to peddle some of their meat, and are frequently seen grazing on the townsite. The increase in caribou is very gratifying. Numerous herds range along the northern boundary of the park, from the head of the Peace to the head of the Columbia River. They can be seen at almost any time. There is also a large herd in the Tonquin Valley. Their numbers in the park are placed at 1,000. Moose are also reported that these animals are also very numerous on the borders of the boundary.

Almost every lake and stream in the park contains beaver and they are increasing rapidly. Buffalo, Franklin, elk, moose, marmots, porcupines, groundhogs, fox, marmots, and various birds in the park with a little running stream passing through it. It is now a series of small lakes and dams which are occupied by hundreds of beaver. Especially good hunting is provided for the sportsman. Beaver are very numerous, while mink and muskrat are also increasing. Keen vigilance is exercised to prevent trapping of these animals. Wolf, coyote and wolverine are being trapped. There have been no signs of cougar.

Good catches of fish were reported generally, and the fishing was much better than in previous seasons. The park has a large number of lakes and streams. Caledonian Lake, opened after two closed seasons, showed the results in an abundance of fish.

Confer Honorary Degrees

At the seventeenth annual convocation of the University of Alberta which was held at Edmonton recently, honorary degrees in law were conferred upon Lieutenant-Governor Fielding, Hon. Dr. E. D. Beal, chancellor of the university. There were 194 degrees conferred upon the graduating classes of the various faculties. The graduating address was given by Principal W. C. Murray, of the University of Saskatchewan.

Work Will Take Many Years.

The war-torn cathedral of Rhenish has been reopened. M. Herbin, Minister of Education and Arts, has handed back to the parishioners the stonewalled cathedral to Cardinal Luenen, archbishop of Rhenish. Nearly half the great cathedral church had been roofed over and repaired, but it will take twenty or fifty years, architects say, to complete the restoration.

"They say bennies have a sweet disposition, that blunders."

"Well, my wife's been both and I can't notice any difference."

Cultivation of Strawberries

Careful Preparation of the Soil Is Very Necessary

The strawberry can be successfully grown on sand and on loam, from a very light sand to a heavy clay, but it flourishes best on a moderately light friable soil. It is important to choose a soil that does not pack or harden, but one that the roots of the plants can root in as easily as possible. To avoid damage from white grub, land that has been in sod for some years should not be used for strawberries until a few hard crops are raised. Land infected with castor beans or other pernicious weeds should also be avoided. Careful preparation of the soil is necessary, nevertheless, to insure success in "Strawberry and its Cultivation in Canada." Before planting, the land should be thoroughly ploughed, disked and harrowed, and it should be rolled in order to facilitate planting. Fertilizer should be applied in accordance with the directions given in the application to the Publications Branch, Department of Agriculture, Ottawa, covers every phase of straw- berry growing.

Dust Cloud Surrounds Earth

Absorbing Matter Also Around Sun and Stars Says Harvard Professor

That the earth, the sun, and all the nearby stars may be surrounded by a thin layer of dust, which may account for motor touring, is regarded as a safe conclusion, that Canada has yet known. Many causes are contributing to this result, the two extremes being the spread of the information that the stars are surrounded by a thin layer of dust, and the fact that main highways are not surprised by any on the continent, and the realization, by our neighbors to the south, that Canada has an ideal climate, so that a world monopoly of crude oil is likely to come from the north.

Prof. King does not find that to a certain distance, the dust gets thicker, and they surround some star clusters. One of these is the famous group, the Pleiades, a number of stars loosely gathered together, and called the Seven Sisters.

However, if the clouds were present throughout the universe, the most distant stars would look intensely red, but this is not the case. Prof. King does find that the greater the distance, the greater gets the star, the farther away they are.

Work Was Never Finished

Critical Wood Carver Chastised Low For Many Years

The Cathedral of Zacatecas, Mexico has one of the most elaborately carved church facades in the world. The work of carving was never finished, however, because a carver who started the work later committed a crime and was sentenced to death but given a reprieve to complete the job after which the sentence was to be carried out. He died while the subject and townsfolk expected a reprieve, either from another province or from outside of Canada, will find that they are able to obtain hunting and fishing privileges by applying to the provincial game officers, and complying with the laws.

A Modern Diogenes

A modern Diogenes has been discovered in England. Sir John the Baron of Valentine Lane, who has cut down the Great sage and his barrel by himself in a bathtub. Discovered in a factory accident three years ago, and unable to do more than crawl about, he has been a recluse ever since in a battered bathtube roofed with boards, beside the highway, with a police dog occupying a sugar box annex. The porters bungalow, however, lacks running water.

A Useless Precussion

A clergyman was having dinner with a parsonage neighbor at a restaurant. He ate very sparingly, explaining that he must not eat too much a meal before preaching it he was to do himself justice in the pulpit. The bistro was an older man, however, who was also attending the service, when his host had returned seated, said, "How was he?" "Oh, well," he replied weakly, "he might as well eat."

Regulates Marketing of Fruit Crops

F. M. Clark, a former treasurer in the Manitoba provincial government has been appointed chairman of the Board of Control which will function under the new Marketing Commission Act, which was enacted at the recent session of the B.C. legislature. The board will endeavor to regulate the marketing of the fruit crops in order to obtain better returns for producers.

"They say bennies have a sweet disposition, that blunders."

"Well, my wife's been both and I can't notice any difference."

DESTRUCTION CAUSED BY FOREST FIRES

This is magnificent—but it is war. Such fires, although they may occur hundreds of miles from our larger industrial centres, cannot be dismissed by the average citizen as of only passing interest, for forest fires have a far-reaching effect on production, commerce, and transportation, and they deliver a blow which shocks the whole economic fabric.

Why Canada Attracts Tourists

Indications Point to Greatly Increased Traffic This Year

There is no doubt that the coming months will witness a marked increase in the number of tourists, for many reasons for motor touring, we regard both citizens and visitors, that Canada has yet known. Many causes are contributing to this result, the two extremes being the spread of the information that the stars are surrounded by a thin layer of dust, and the fact that main highways are not surprised by any on the continent, and the realization, by our neighbors to the south, that Canada has an ideal climate, so that a world monopoly of crude oil is likely to come from the north.

Prof. King does not find that the main highways are not surprised by any on the continent, and the realization, by our neighbors to the south, that Canada has an ideal climate, so that a world monopoly of crude oil is likely to come from the north.

Twenty-six years ago Madam Yone, widow of the late Emperor Meiji, the affairs of her household, her husband dead, leaving her a large fortune, which she sold for \$25,000.

She immediately began to conduct large commercial transactions, to the scandal of Japan, which was still unaccustomed to a woman playing such a part.

The Red Cross appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian Citizen, to contribute generously to its need for funds.

JOHN VALETSKO PASSES AWAY

John Alfred Valetsko, succumbed to pneumonia last Saturday, "Johnnie," as he was familiarly called, was well known and liked by everyone. He was not quite 21 years of age. He had been employed in the Soda-store for some time and was popular with his employer. He longed to mourn his loss his mother, Mrs. B. Valetsko; five sisters, Mrs. C. Laing, Clara, Annie, Myrtle, of Claresholm, and Mrs. J. Bartis of Kenedy, Sask., and two brothers, Wm. and Leo.

The funeral service was held on Tuesday afternoon in the United church. The crowded church testified to the great popularity of this young man. Rev. R. W. Gilchrist officiated. Rev. W. Barlow of the Anglican church, and Rev. A. H. Eggleston of the Nazarene church. Rev. W. Barr gave a strong message from the text "Young man, I say unto thee, arise." A. Laurie sang a solo by request.

Card of Thanks

We desire to express our thanks to all who so kindly extended sympathy and assistance during our recent bereavement; to the ministers and to the many beautiful floral offerings.

Mrs. B. Valetsko and family.

IN MEMORIAM

In loving memory of Catherine Harvey Lewis, who passed away June 10th, 1926.

The month of May again is here; To us it is the saddest of the year, a shock—severe.

To part with one we loved so dear.

Soft and bright the stars are shining.

Over a lonely grave,

Whom else but the one we loved so dear?

Whom we tried so hard, but could not save.

The Lewis Family.

If you want to help the Red Cross in this campaign, "Do It Now." Talk to your friends of what the Society has done, interest the people you meet in home, street, office or social gatherings and impress upon them the fact that this is the first call made by the Canadian Red Cross on the national purse in ten years.

BULMAN—STRANGWAYS

A quiet wedding was solemnized in Claresholm on June 7, when Edna Mary, daughter of Mr. and Mrs. Ed. Strangways of Claresholm, was united in marriage to Mr. Everett John Bulman, son of Mr. and Mrs. J. E. Bulman, of Warner. Rev. G. Dickson performed the ceremony.

The bride wore a gown of powder blue georgette, with large picture hat to match, and carried a colonial bouquet of Matante Butterflies roses.

Mr. and Mrs. Bulman will reside in Claresholm.

The warm weather is bringing the grain along very fast in this district. Wheat acreage here is reported larger than last year, and prospects for a big yield were never better.

In times of disaster, illness or need thousands in Canada have called on the Red Cross and have never called in vain.
